

CASCADE TREE ASSEMBLY SHEET

Parts included:

- 3pcs screws
- 1pc metal tree stand
- 1pc bottom section tree
- 1pc top section tree
- Spare bulb / fuse

Assembly:

1. Before you start to assemble your tree, choose a location where the tree is to be displayed.
2. Remove all packaging (i.e. cardboard or wrapping paper) before beginning.
3. Carefully insert the bottom section tree pole into the stand, then insert the top section tree into the bottom section (see diagram 1). Make sure the pole is firmly inserted into the stand and screws tightened.

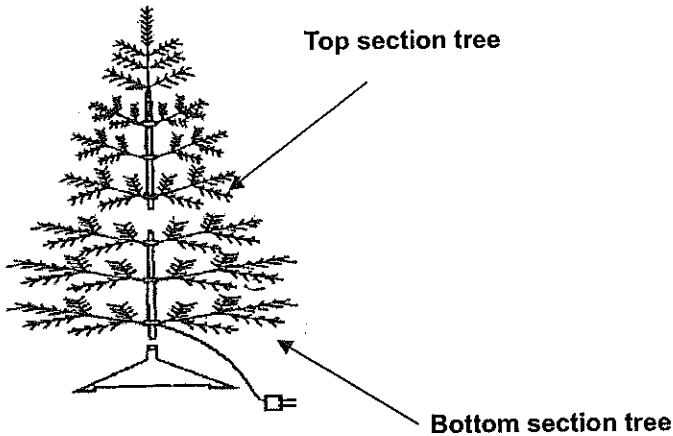

Diagram 1.

3. Allow branches to fall into place or gently spread out and when adjusting branches be sure that all wires are free.
4. Connecting the strings with power: Please find the power supply cord on the bottom section tree, carefully connecting the plug to end-connector between two sections of tree.
5. If bulbs do not light, check whether all bulbs are tightly fixed into the lamp holder.
6. if a bulb is blown , replace the faulty bulb with spare bulb provided.

User maintenance and storage:

1. Disconnect power from the lights.
2. Store the product in dry location and protected from sunlight.

CAUTION:

1. To reduce the likelihood of excessive heat and possible damage, use only decorative lamp accessories packaged with this product.
2. Always unplug this product before installing or replacing fuses and lamps.
3. to reduce the risk of overheating, replace burned-out lamps promptly. Use 2.5V 0.425W lamps only.
