

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING - Risk of fire and electric shock:

1. Read all instructions and warning tags included with this tree.
2. Do not place near barbecues, candles, outdoor heaters, or other similar sources of heat.
3. Do not install near pools, fountains, tubs, sinks, or other areas of standing water that the tree may fall or blow into.
4. Disconnect the tree's light sets from power before starting.
5. Keep wires clear of being pinched or cut during assembly or installation. Discard sets with cut or pinched insulation.
6. Do not press or grasp bulbs during assembly or installation.
7. Make sure the final assembly is stable enough to hold the tree upright.

8. Do not use candles on tree. Use only with the included mini lights.
9. Do not overload extension cords or power strips.
10. Always fully insert electrical plugs into a receptacle.
11. This product is for decoration use only. Not to be used by children as a toy. Keep out of reach of small children.

No tools required for assembly.

Before you start:

1. Decide on an appropriate location for your tree.
2. Read assembly and instructions carefully.
3. Retain the instructions for future use and save the carton for storing your tree.

ASSEMBLY INSTRUCTIONS:

Every carton should contain a top section and a bottom section. (Larger trees include a middle section as well). This will depend on what model you have purchased. Also included is a metal base. Remove all packaging (i.e. cardboard or plastic) before beginning.

1. Choose a location where the tree is to be displayed. Take out the tree stand. The metal stand unfolds into an X shape as seen in **Figure 1**. Place the stand on a level surface.

2. Insert the pole with the tapered end of the tree bottom into the tree stand and tighten the three screws on the stand.
3. Insert the middle tree section into the tree bottom and push down into position. (Note: this does not apply to trees with only two sections).
4. Insert the tree top into the middle tree section and push down into position as seen in **Figure 2**.

CONNECTING THE LIGHTS:

1. Locate the power supply cord on the bottom section. Carefully connect the plug to end-connector by A to A, and B to B.
2. Plug the bottom section cord into a power outlet.

FLUFFING & SHAPING THE TREE:

1. Gently lower all main branches on the tree sections as seen in **Figure 3**. Take care not to place unnecessary pressure on the brackets when assembling. The branches on your tree can be adjusted to give your tree the desired amount of fullness. For best results, straighten and separate all branch tips, then bend them slightly upward as seen in **Figure 4**.

STORAGE TIPS:

1. **WARNING** - Disconnect power from the lights.
2. Remove all decorations.
3. Starting from the top, carefully remove branches. Press the tips back up against the stem.
4. Place the branch sections back into the carton, putting the longest one on the bottom.

5. Store the tree in a cool, dry location, protected from sunlight where the temperature does not exceed 104 degrees Fahrenheit.

WARNING: This product can expose you to chemicals including phthalates, which is known to the State of California to cause reproductive harm. For more information visit P65Warnings.ca.gov.
